Summary

As a **Senior Product Designer and Design Manager** with 8 years of experience, I specialize in aligning product vision with user needs, fostering collaboration, and driving innovation through user research, workshops, and design sprints. I have successfully led design initiatives for **AI-driven products, B2B SaaS platforms, enterprise software, mobile apps and in-car infotainment systems** for global brands such as Unilever, Bayer, Pfizer, Audi, and Mercedes-Benz. Passionate about mentoring and advancing UX maturity, I bring a **design-led** approach to creating **user-centric, scalable products**.

Experience

Senior Product Designer – AI Products Suite, Star

August 2024 – present

Designed AI agent builders, self-learning systems, AI chats, prompt templates, and other AI experiences for the world's largest multinational advertising & marketing company's enterprise platform.

Senior Product Designer – Enterprise Platform AI Assistant, Star

January 2024 – July 2024

Led the design efforts to integrate multiple AI tools, services, and capabilities into a centralized AI Assistant for the world's largest advertising company's enterprise platform

- Conducted user and expert interviews to understand user needs and validate use cases, resulting in comprehensive user journey maps that guided the design and development of the AI Assistant.
- Collaborated closely with cross-functional teams to align roadmaps and integrate existing AI solutions into the new central AI Assistant, ensuring consistent user experience.
- Adapted traditional user-centered design frameworks to accommodate the complexities of AI-driven products, emphasizing data availability, AI capabilities, and user feedback.

Senior Product Designer – Enterprise Platform Developer Hub & Data Catalog, Star

February 2023 – December 2023

Shaped product vision for the developer experience and data catalog of the world's largest advertising company's enterprise platform.

- Proactively solicited stakeholder involvement through interactive workshops, interviews, ideation and testing sessions.
- Leveraged a clickable prototype to visualize a compelling future vision, resulting in team alignment on key project objectives and priorities, accelerating decision-making process.

Senior Product Designer – Supplier Discovery Suite, Star

June 2022 – February 2023

Leveraged user research data from running continuous product discovery to redesign the search experience, resulting in improved user satisfaction.

- Involved product managers, engineers, researchers, data and customer success teams in co-creation workshops, resulting in a shared understanding of the problem and solution space.
- Ran user research sessions for multiple products throughout the design process: from initial product discovery and to validating solutions.

Product Design Manager – Design System for Supplier Discovery Suite, Star

November 2021 – June 2022

Led a 4-member cross-functional team (design, development) to build an easy-to-scale design system.

- Conducted research with designers, developers, and stakeholders to inform the goals and scope.
- Managed the roadmap and stakeholder communication, achieving alignment on expectations.
- Coordinated with the product team toward a successful MVP launch ahead of schedule.
- Collaborated with marketing teams on branding and positioning resulting in a unique visual direction.

UX Designer – Customer Platform for a Digital Services provider, Star

July 2021 – October 2021

- Shaped the vision of an innovative user-centric customer platform based on user research data.
- Achieved stakeholder alignment on goals and strategy by creating wireframes and an interactive clickable prototype showcasing the UX concept.

UX Team Manager – MBUX In-vehicle Infotainment System, Luxoft

2019–2021

- Managed a team of 3 UX designers to deliver UX concepts for the Entertainment module.
- Coordinated efforts with 5 teams: UX, UI, translation, engineering and implementation.

UX Designer – MBUX In-vehicle Infotainment System, Luxoft

2018–2019

- Created technical UX Concepts, UX specification and documentation i.e. wireframes, user flowcharts.
- Specified states, conditions, transitions, screen formats, safety restrictions for the Entertainment module (Radio, Media, Sound Settings, Multi-Seat Sharing Experience).

UX Designer – Luxoft

2017–2018

Crafted the user experience for various products, such as a pharma networking platform, a business monitor tool and a digital workspace.

- Ran 10 in-person on-site usability testing sessions for a platform that enables biopharma professionals to identify and meet potential business partners at conferences.
- Produced high-fidelity responsive design mockups, based on user flows for various user personas.
- Developed a comprehensive UI Kit, establishing design consistency across diverse platforms.
- Enhanced product usability by creating a mobile-friendly experience, ensuring broader user adoption and engagement.

Design Team Manager – Fresh Digital Group

2016–2017, New York City

- Coordinated a team of 4 designers in a voice interaction and digital design studio.
- Allocated resources, briefed the team on projects, ensured successful and timely project delivery.

UX Designer – City Love Cityguide App

2016

- Ran the entire design process: competitor analysis, user journeys, personas, pixel-perfect UI design.

English for Designers Mentor – Projector School of Design & Development

2015–2021

- Mentored 13 groups of designers.
- Crafted an educational program that covered composition, color, typography, UI/UX guidelines.

Art Director – Panorama Magazine (Ukraine International Airlines)

2011–2014

- Led a team of editors, photographers and illustrators to produce 45 monthly magazines of Panorama Magazine, the in-flight magazine for Ukraine International Airlines.

Design Intern – Tribal DDB

2011

- Collaborated with senior designers, producing social media marketing visuals and UI/UX designs.
